## **Safety Plan on Coronavirus (COVID-19) spread prevention**

The organization is adopting a plan to reduce the risk of spreading the COVID-19 virus.

Taking into a consideration that the Serbian Millenians in Sweden is organizing a training course called "Youth Winter School" in Belgrade, Serbia in the period from July 21-29, 2020, measures are determined to prevent the spread of the virus and protect participants, organizers, coaches and staff.

Measures are:

- Creating a safety plan
- Informing project partners about the measures they will inform their participants about
- Development of a safety manual
- Preparation of protective packages for each participant, organizer, staff
- Organization of safe transportation for participants from entering Serbia to accommodation
- Preparation of a statement for participants on the obligation to follow safety instructions
- Designation of a person to control compliance with security measures
- Designation of persons for emergency action

- **Creating a safety plan**

This plan defines the necessary actions and engagement of the project team in order to provide the best possible protection against the COVID-19 virus.

- **Informing project partners about the measures they will inform their participants about**

This means communication with project partners and informing them about the instructions they needed to pass to all participants from their organizations.

- **Development of a safety manual**

It is necessary to create an interactive security plan which will be sent to the partners, which the participants will receive upon arrival at the accommodation and which will be hung in visible places in the work premises. The plan should include all instructions that participants should follow in order to reduce the risk of spreading the COVID-19 virus.

- **Preparation of safety kits for each participants, organizers, staff**

It is necessary to prepare safety kits that will contain the equipment recommended by the competent institutions of the Republic of Serbia, namely: protective visors, protective gloves, protective masks, disinfectants and instructions for behavior.

- **Organization of safe transportation for participants from entering Serbia to accommodation**

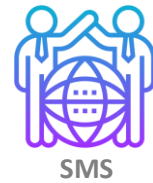

It is necessary to organize safe transport with disinfected vehicles from the airport / bus station where there will not be more than 4 people including the driver.

- **Preparation of a statement for participants on the obligation to follow safety instructions**

It is necessary to prepare a obligatory statement of readiness to follow all the instructions of the organizers and the use of protective equipment throughout the project, which all participants will sign upon arrival at the accommodation and receiving safety kits.

- **Designation of a person to control compliance with safety measures**

It is necessary to determine the person who will be present at the location during the entire duration of the project and monitor prescribed measures with

visual observation and issue warnings if non-compliance with the measures occurs.

- **Designation of persons for emergency action**

It is necessary to designate a person who will be present at the location throughout the project who will be in charge of responding to emergencies in case of symptoms of COVID-19 virus, such as temperature measurement and transport by disinfected vehicle to the nearest COVID clinic with all necessary safety measures.

For the implementation of the plan are determined following personnel:

Mladen Todorovic,

Mirjana Vasic,

Danijel Pantic.
