The Enigmatic City of Kamnik

In the heart of Kamnik, discover a narrative woven into the very fabric of the city. The chapel on Mali Grad, a masterpiece of Slovenian architecture, stands as a witness to the tale of the countess Veronika, immortalized within the coat of arms.

Confront the legend in the old town, where the stones whisper of a countess transformed into a serpent, a manifestation of her own curse. The imprint of her wrath lingers, a chilling testament to the folktale penned by Janez Vajkard Valvasor.

Will you dare to unravel the mysteries that sleep beneath the Mali Castle, to uncover the truth behind the miserly countess and her guarded treasure?
